cc. Clarna Buckley  
Entle Foundation

Effective today approval must be obtained from P. E. Heisler or C. F. Buckley. prior to:

- 1) Washing a significant product spill to the sewer.
- 2) Washing tank drainings from a tank cleaning to the sewer.
- 3) Sewering a ruined batch, etc.

This action is necessary in order that our plant efforts on stream pollution are properly coordinated and to insure steady progress in solving our waste disposal problem.
